Useful camera tripod for mounting compact cameras, action cameras, web cams, mini-projectors and mobile recorders with a 1/4" connection thread. The ball joint allows the mounted equipment to be rotated 360° and fixed in any position. The tilt-angle is infinitely adjustable up to 90° and the load capacity is designed for equipment up to 1 kg. The height can be freely adjusted from 555 mm to 1355 mm via two extensions. For transport, the tripod folds compactly to save space.
