Y50

ON-EAR HEADPHONES WITH IN-LINE ONE-BUTTON UNIVERSAL REMOTE/MIC.

AKG puts the fun into serious listening.

Discover AKG signature quality sound in a stylish, comfort-first, on-ear headphone destined to go with you everywhere.

There are a lot of good headphones out there but few have the credentials for sound quality that AKG enjoys – with over 65 years of Grammy®-recognized achievement and the respect of musicians everywhere. Hearing them is only part of the magic of AKG – as the AKG Y50s represent a new breed of exceptional on-ear headphone for people demanding more: more quality, more convenience, more flexibility. Their inspirational performance is matched by a bold styling and a lightweight, comfortable fit that redefines the category. Slip them on. Feel yourself escape into the luxury of rich sound with enhanced bass. Of hands-free controls placed just right for an ease of operation whether you're plugged into your smartphone or other device of your choice.

Their closed-back design eliminates any other sounds but the ones you want to be hearing, providing a snug, comfortable fit that won't wear you down like many headphones. Choose a look and color to complement your personal touch – while you become a catalyst for quality and taste.

## HIGHLIGHTS

- ▶ Signature AKG-quality sound with enriched bass performance
- ▶ On-ear headphone with closed ear-cup design for reduced ambient noise
- ▶ Long-lasting, comfortable fit with rugged, lightweight design
- ▶ Detachable, 1.2m cable with inline, one-button remote/mic for complete hands-free accessibility
- ▶ 3D-Axis folding mechanism and pouch for easy storage and safe transport
- ▶ 4 cool color options with emphasis on smart, tasteful design and AKG branding

## FEATURES AT A GLANCE

- ▶ **Signature AKG-quality sound with enriched bass performance**  
AKG sound originates from powerful, 40mm drivers delivering an enhanced, punched-up bass response with minimal disturbance from the outside world thanks to their bleed-resistant design.
- ▶ **On-ear headphone with closed ear-cup design for reduced ambient noise**  
Removing those external sounds you'd rather not hear allows for a distraction-free environment with which to fully concentrate on the acoustics you'd prefer to hear – as it should be.
- ▶ **Long-lasting, comfortable fit with rugged, lightweight design**  
Headphones may sound great but unless they're comfortable, they won't wear well over time. The AKG Y50s lightweight construction and closed ear-cup design are engineered to feel like they're barely there – yet provide you with a listening experience to fit your discerning tastes like a glove.
- ▶ **Detachable, 1.2m cable with inline, one-button remote/mic for complete hands-free accessibility**  
Keep connected for work or for play while you choose between taking a call or riffing on a favorite tune – all without skipping a beat. Compatible with most smartphones, AKG Y50s address your on-the-go lifestyle but leave the decisions of what to do next up to you.
- ▶ **3D-Axis folding mechanism and pouch for easy storage and safe transport**  
AKG Y50s adhere to your on-the-go lifestyle, designed to fold down neatly for safe storage in a compact, protected pouch. This keeps them safe when you're not using them – but ready to come into play whenever you need to take them with you.
- ▶ **4 cool color options with emphasis on smart, tasteful design and AKG branding**  
The AKG brand is something you can be proud to wear as they represent the very best in sound quality, making an overall statement that speaks highly of your personal taste and standards. There's no reason why something that sounds so good shouldn't look the part – so choose the color and overall look that best complements your personal style.
