MagicQ Stadium Connect

Product code 200-025

Optional Flight Case Product Code: 100-255

MagicQ Stadium Connect is a PC-based programming wing with the same programming keyset and dual crossfaders as the MQ250M and MQ500M. Outputting up to 64 universes directly from the wing, and the ability to pre-vis up to 256 universes, MagicQ Stadium Connect is the ultimate solution for complete control on-the-go. With 10 backlit and motorised faders and 10 backlit playback encoders with executors with plenty of programmable real estate for your show.
