

onAir Panel 1 IP Intensifier

An optional filter that concentrates the light into a narrower beam angle to intensify the overall output.

Ideal for long-throw applications where a highly concentrated and powerful beam of light is required.

- Narrows the fixture's beam angle to 61.4° for a highly concentrated light output.
- Delivers a powerful 190 lux at 5 meters, ideal for long-throw applications.
- Maintains exceptional light quality with a high CRI of 92 for superior color rendering.
- Focuses the fixture's output to deliver a bright 6,145 lumens in a tighter beam.
- Designed exclusively for the onAir Panel 1 IP, ensuring seamless integration and performance.
- Offers a defined 61.4° beam within a wide 113.2° field for a soft-edged wash.
