

onAir Panel 1 IP Studio Barndoor

A light control accessory designed to shield excess light spill from illuminating the stage or surrounding architectural elements.

Perfect for theatrical, worship, and event applications where precise beam control is required to prevent distracting glare.

- Designed for a perfect, secure fit on the onAir Panel 1 IP.
- Features four independently adjustable leaves for precise beam shaping.
- Effectively eliminates unwanted light spill and distracting peripheral glare.
- Creates sharp, clean edges for focused subject or scenic illumination.
- Helps control lens flare for cleaner broadcast and camera-facing shots.
- Essential for controlled lighting environments like theaters and studios.
