Soundcraft

Mix, record and produce your Signature sound

Signature
MULTI-TRACK

Drawing on over 40 years experience in live sound mixing, the Signature Multi-Track mixers bring together an ultra-low latency USB recording interface, a superb analogue mixer and the unrivalled British sound of Soundcraft. Whether you're recording a live gig or a studio rehearsal, mixing a band, or producing a demo, Signature Multi-Track mixers deliver great sounding results thanks to high-grade Ghost® preamps, the most musical EQ in the business, pristine Lexicon® effects and powerful dbx® dynamics - all designed to let you discover your Signature sound.

The legendary British sound

From humble beginnings in London more than 40 years ago and still designed and engineered in the UK, Soundcraft defined the term 'British sound' in live sound mixing consoles. Acclaimed Ghost mic preamps and our Sapphyre 'British' equaliser ensure the Signature range carries Soundcraft signature sound today.

Ultra-low latency USB interface

Includes Ableton Live Lite

Primed for live or studio recording, Signature MTK mixers features a superb low-latency USB recording/playback interface, capturing every channel for further mixdown and production sessions with any DAW.

Straight out of the box, Signature Series mixers come bundled with Ableton Live 9 Lite.

Iconic Soundcraft® Ghost Mic Preamps

It's no secret that great sound starts with a great microphone preamp.

Inheriting technology from our top-of-the-line professional consoles, our industry-acclaimed Ghost mic preamp delivers stunning audio fidelity and class-leading performance, with high headroom, wide dynamic range and superb signal to noise ratio. Trust us - great sound starts here.

Soundcraft® Sapphyre British EQ

To get every element sounding great in your mix, from the kick drum to the lead vocal, you need a great EQ.

Famed for its musical sound and unmistakable 'British' quality, Signature Multi-Track mixers feature our highly regarded Sapphyre EQ. Signature 12 MTK features a 3-band EQ with sweepable mid. Signature 22 MTK features a 4-band EQ with dual-sweepable mid bands.

Award-winning Lexicon® effects

Need effects? You've got Lexicon®. With the Signature Series you don't just get generic, dull processing algorithms. The Lexicon® Effects Engine (Dual-Effects Engines on Signature 22 MTK) powers your mix with studio-grade Reverbs, Delays, Choruses and Modulations, designed to add a truly professional edge to your productions. Also included is the Lexicon MPX-L plug-in for native processing on your PC or Mac.

Built tough for the long haul

We understand the importance of reliability. Every night, Soundcraft consoles run the biggest shows in the world. With a robust metal construction and premium-quality components, Signature Series mixers are built to withstand the rigours of extensive use and deliver years of maintenance-free operation.

Switchable Hi-Z instrument inputs

Eliminate fuss by connecting instruments direct to your mixer.

Removing the need for DI boxes or additional hardware, Signature Series mixers make it simple to get a great instrument channel sound using the switchable Hi-Z inputs, optimised for acoustic guitars, electric guitars and basses.

Flexible Soundcraft® GB audio routing

Giving you maximum flexibility, Signature Series mixers feature comprehensive Soundcraft GB® series audio routing with flexible pre/post switching on each Aux and subgroups with powerful routing and switching options as well as dedicated outputs.

Key features

- High-Performance 12- or 22-input small format analogue mixer with onboard effects and multi-track USB recording and playback
- 14-in/12-out (12 MTK) and 24-in/22-out (22 MTK) ultra-low latency USB playback and recording interface
- Iconic Soundcraft® Ghost mic preamps with ultra-low noise performance

Mix and record live - your Signature sound

Record and mix a live show

With over 40 years experience building some of the world's most popular live sound mixers, we know what it takes to create a great show.

Signature Series Multi-Track mixers have everything you need to get a killer mix - and then capture the performance direct to your PC or Mac DAW.

High-grade Soundcraft® Ghost preamps, the most musical EQ in the business, pristine Lexicon® effects and powerful dbx® dynamics - all combined with a superb low-latency multi-channel USB audio interface.

Soundcraft

Signature
MULTI-TRACK

Integrate playback with live performances

Whether the drummer needs a click, or the band needs to integrate pre-recorded loops and material with the live performance, it's easily achieved via the multi-channel USB audio interface.

Connect to your laptop and use the included Ableton Live 9 Lite software to play in the additional audio.

Mix live with your favourite plug-ins

Now you can bring your studio sound to the stage.

The Signature Multi-Track USB audio interface lets you insert any VST/AU/AAX/TDM/RTAS plug-ins on any input channel with extremely low latency, so you can integrate your favourite studio plug-ins seamlessly with your live performance.

Mix for the moment

Even if you're not recording or using the USB interface capabilities, Signature Series mixers deliver stunning sound - pristine mic pre's, super musical EQ, studio-quality effects and a feature-packed, flexible control surface with wonderful smooth, premium-feel faders.

Soundcraft

Perfect studio recordings - your Signature sound

Upgrade your studio interface. Seriously.

You could record in the studio using a standard audio interface with a few inputs and a couple of knobs. Or you could get real.

Signature Series Multi-Track mixers combine a superior analogue mixer with a flawless USB audio interface to take your recordings to the next level.

Develop your unique Signature sound with Soundcraft.

Soundcraft

Signature
MULTI-TRACK

A superb analogue front-end for your DAW

Enjoy amazing analogue front-end sound from the Soundcraft® Ghost mic preamps to breathe life into your recorded tracks and use the Signature Series aux busses and mix capabilities to send headphone mixes and control your mix station's speakers.

You can also listen back from your DAW with each channel's USB return.

Capture every rehearsal. Perfectly.

Signature Multi-Track Series mixers are perfect for capturing the moment. Set-up, dial in your mix, connect your DAW and hit record to ensure ideas from writing sessions, jams and rehearsals are preserved in 24-bit quality.

Every instrument can be individually tracked so you can listen back and find those moments of inspiration.

Bring new life to old material

Resurrect old DAW multi-track recordings and remix using all the powerful features and sonic capabilities of the Signature Series.

Hook up your DAW via USB and enjoy hands-on, analogue mixing with smooth faders and all of our legendary sound and processing tools.
