# WB10/12

## WALL BRACKET FOR BLACKLINE X10, X12 AND XP12, CDD10, CDD12, CDD-LIVE12, FP12

### Wall spacer accessory kit

- Optional accessory kit containing a pair of spacers
- Allows you to increase the horizontal angle of the speaker
- Fit one or two spacers behind each bracket, as required
- Available in black (SP10/12-B) or white (SP10/12-W)
- Compatible with the latest version of this wall bracket only. This version has four notches in the outer edge of the wall section (see picture below). Each spacer has four lugs on the front that fit into the notches in the bracket and four notches on the back that fit to the lugs on the second spacer
- Not compatible with the previous version of this wall bracket, which does not have notches (see pictures on the previous page)
