SWISS ARMY KNIVES
2016

MAKERS OF THE ORIGINAL SWISS ARMY KNIFE | ESTABLISHED 1884

Ibach-Schwyz

Victorinox 1884-2016;
More than 130 Years of Experience and Swiss Tradition

The little red pocket knife, with cross and shield emblem on the handle is an instantly recognizable symbol for our company. In a most unique way, it conveys excellence in Swiss craftsmanship, and also the impressive expertise of more than 2,000 employees worldwide.

The principles by which we do business, are as relevant today as they were in 1897 when our company founder, Karl Elsener, developed the “Original Swiss Army Knife”: functionality, innovation, iconic design and uncompromising quality. Our commitment to these principles for more than 130 years has allowed us to develop products that are not only extraordinary in design and quality, but also in their ability to serve as reliable companions on life’s adventures, both great and small.

Today, we’re proud to present a range of Swiss Army Knives which perfectly embodies those principles, and features our best, and perhaps future classics.

Victorinox

Carl Elsener
CEO Victorinox

Black 0.9410.3

Tactical and trusted, the Hunter Pro collection is designed for easy one-hand access. The high carbon, stainless steel blade locks securely in place and the ergonomic handle provides a secure and comfortable grip; making this a serious must-have for the hunting enthusiast.

Swiss-made, the blade on the Hunter Pro is crafted with the same quality, craftsmanship and durability as the professional cutlery we've produced for the butcher and meat-packing industries since 1884.

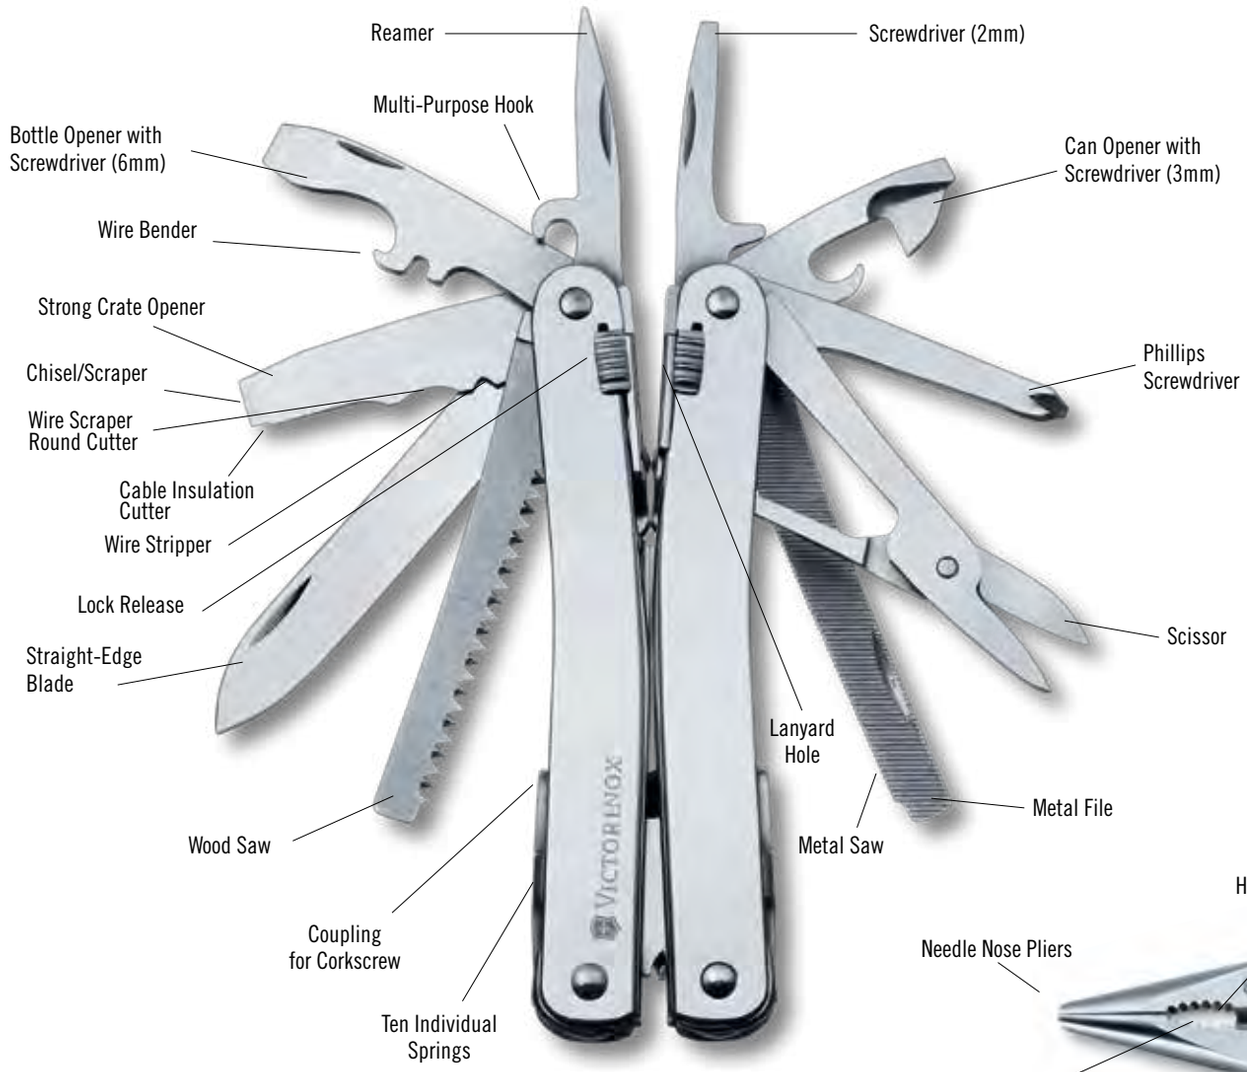
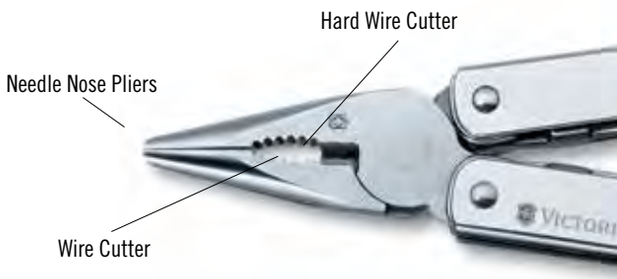
SWISSTOOL™

From its lightweight design, to its ergonomic handles, to its outside-opening implements, there's not much the SwissTool Spirit X can't do. Here's what sets it apart from the competition:





1. ONE STEP ACCESS

Tools can be opened directly from the outside of the handle without opening the pliers.

2. NO CLUMPING

Individual springs hold other tools in place. Access one tool not a clump of tools.

3. LOCK AND RELEASE

Tools lock into place when opened. To close, simply slide the release button and fold the tool away.

SWISSTOOL™

No tool belt should be without its very own SwissTool. Truly a handyperson's helper with a multitude of implements and available accessories, it's at your service when it's at your side.

53800 / 53805 SWISSTOOL™ SPIRIT [105MM]

NEW 17005 WHITTLING BOOK

Victorinox Swiss Army Knife Whittling Book shows you how to carve useful and whimsical objects in just a few minutes using nothing more than an original Swiss Army knife and a twig.

Whether you're relaxing by a campfire or just looking for a way to de-stress at the weekend, whittling is a creative way to unwind and have fun. Learn how to choose your wood, sharpen your blade and control your knife with dozens of easy step-by-step projects.

Written by world-famous whittler, Chris Lubkemann, this book is perfect for campers, hikers, scouts, fans of Ray Mears and anyone looking to learn a new hobby!

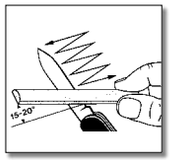
CARE TIPS FOR SWISS ARMY KNIVES

The various tools are manufactured from high-quality steel with precisely tuned features that are essential for the particular application. The steel is tempered, annealed and polished to achieve the necessary hardness and provide optimum resistance to corrosion.

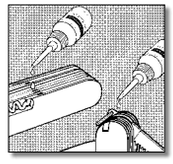
Sharpening

To resharpen your knife, use a whetstone at an angle of 15°–20°. This will result in a cutting angle of 30°–40°. If sharpening on a grinding wheel, always cool with plenty of water to avoid excessive temperatures and the resulting damages that may occur.



Cleaning

When cutting or peeling fruit, fruit juice often runs down between the blades, sticking them together, once it has dried. Open and close the blades in warm water several times and the tools can be easily moved again. When they have dried it would be good, but not always necessary, to apply a small drop of oil between the blade or tool shank and the spring. On the locking mechanism sometimes a drop of our recommended Swiss Army Knife Oil could be helpful (see below). Do not put pen/knives or other Swiss Army Knives in the dishwasher!



When selecting knife oil, various properties need to be taken into account, including the legal provisions relating to the safety of foodstuffs. Some oils intended for Swiss Army Knives do not provide satisfactory lubrication or may even prevent the knife from working properly (i.e., causing it to stick).

Our Recommendation

Swiss Army Knife Oil (Part. # 4.3301)
The main features of this multi-purpose oil are:

- neutral odor and taste
- highly resistant to aging
- good wear and corrosion protection qualities
- suitable for use with foodstuffs

See Price List

ENVIRONMENTALLY CONSCIOUS

Significant energy saving measures are taken at the Victorinox factory in Ibach, from recycling metal shavings to capturing and repurposing heat generated from machinery. Additionally, our packaging process features “board to board” materials that cut up to 70% of the plastic used in traditional clamshell packaging while remaining tamper resistant.

Board-to-Board Packaging

HOW CAN VICTORINOX SWISS ARMY OFFER A LIFETIME WARRANTY?

The Victorinox Quality System

- Since 1884, the quality of our products has been our first priority.
- Inspections ensure all incoming materials conform to quality specifications.
- Victorinox labs meet the latest standard of engineering.
- All employees are responsible for following quality procedures.
- Quality control personnel are thoroughly trained.
- 100 people work in the final inspection department.
- Two main controlling points checked are function and finish.
- Each knife is opened and closed, and the function of each implement is checked.
- We maintain our worldwide reputation by implementing high standards of quality, functionality, design and finish.

AUTHENTICITY

To ensure your product is an authentic Victorinox Swiss Army Knife or specialty tool, simply look at the base of your large blade for the Victorinox name. Don’t be fooled by imitations. Attempts have been made worldwide to copy Victorinox and our symbol of superior craftsmanship – the red-handled knife bearing the “cross and shield”.

GUARANTEE

Victorinox guarantees all of its Swiss Army Knives to be of first-class stainless steel, and provides a lifetime guarantee against any defects in material and workmanship. The casing of the SwissCard® is covered by a one-year warranty.

If it doesn’t say Victorinox,
it’s not the Original Swiss Army Knife.
